The Stinger

*Propane tank not included

The Hottest Thing On The Road!

LAB adds to its family of first class hot air lances, the Stinger. A self contained heat lance on wheels. The unit is a one person operation, ideal for the medium to small pavement maintenance contractor who needs a quality heat lance but does not have access to a large tow behind compressor. The Stinger comes complete with electronic ignition and stainless steel burner and regulator. A 25 foot hose kit makes for easy access to cracks or the lance can be maneuvered with the lance in its holder as shown.

Contact LAB for further information at (800) 776-5830 or visit our website at heatlances.com We look forward to servicing ALL of your heat lance needs.
